C:\Users\manip>cd/

C:\>cd c
The system cannot find the path specified.

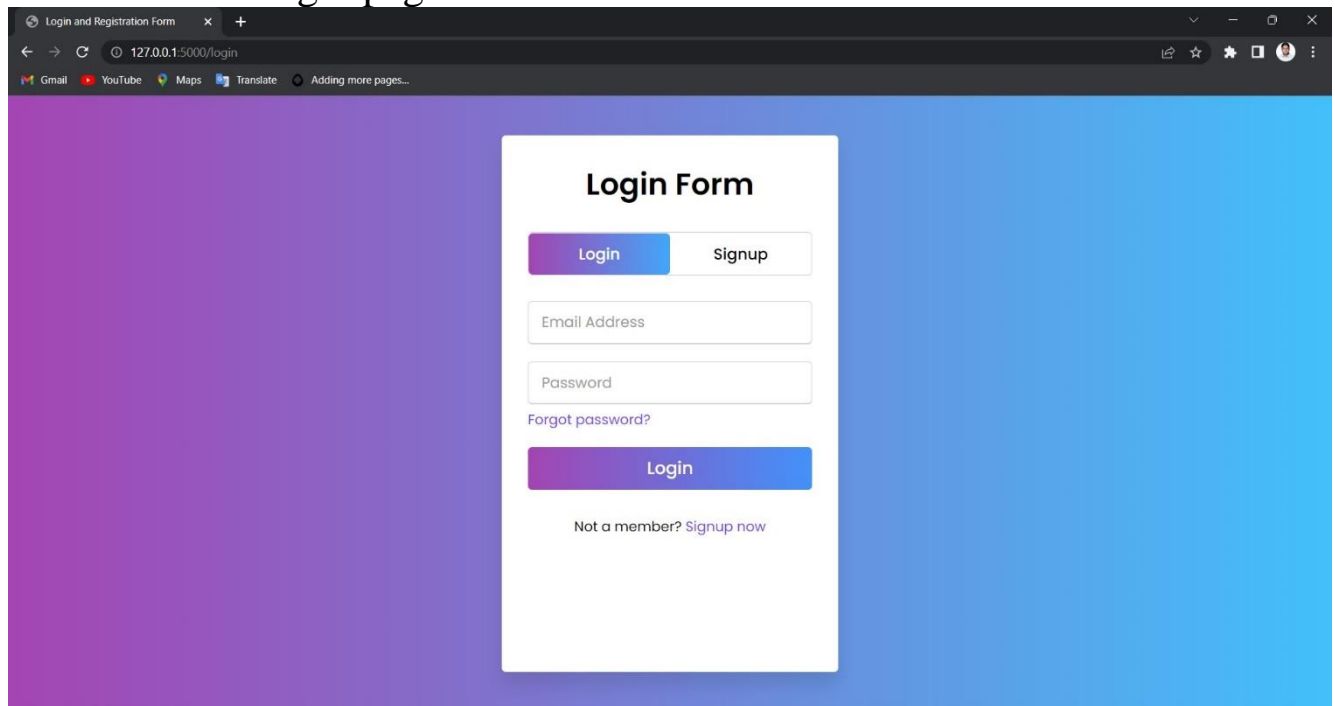

C:\>cd Nalaiyathiran

C:\Nalaiyathiran>python app.py
* Serving Flask app 'app'
* Debug mode: on
WARNING: This is a development server. Do not use it in a production deployment. Use a production WSGI server instead.
* Running on http://127.0.0.1:5000
Press CTRL+C to quit
* Restarting with stat
* Debugger is active!
* Debugger PIN: 240-729-678
```

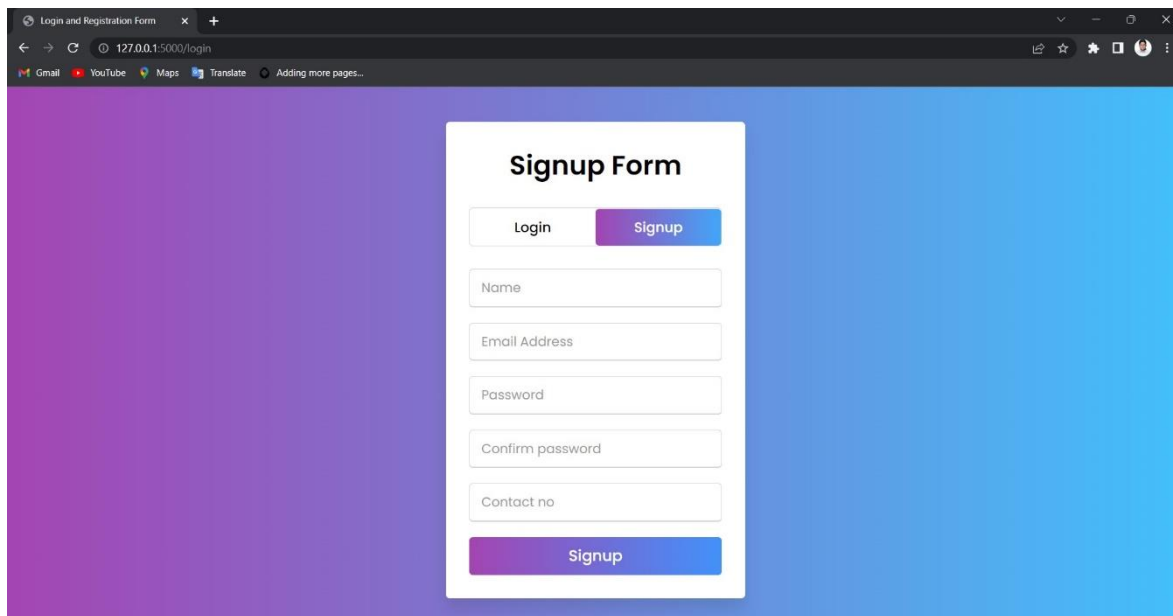

2. Add the home page

3. Add the login page

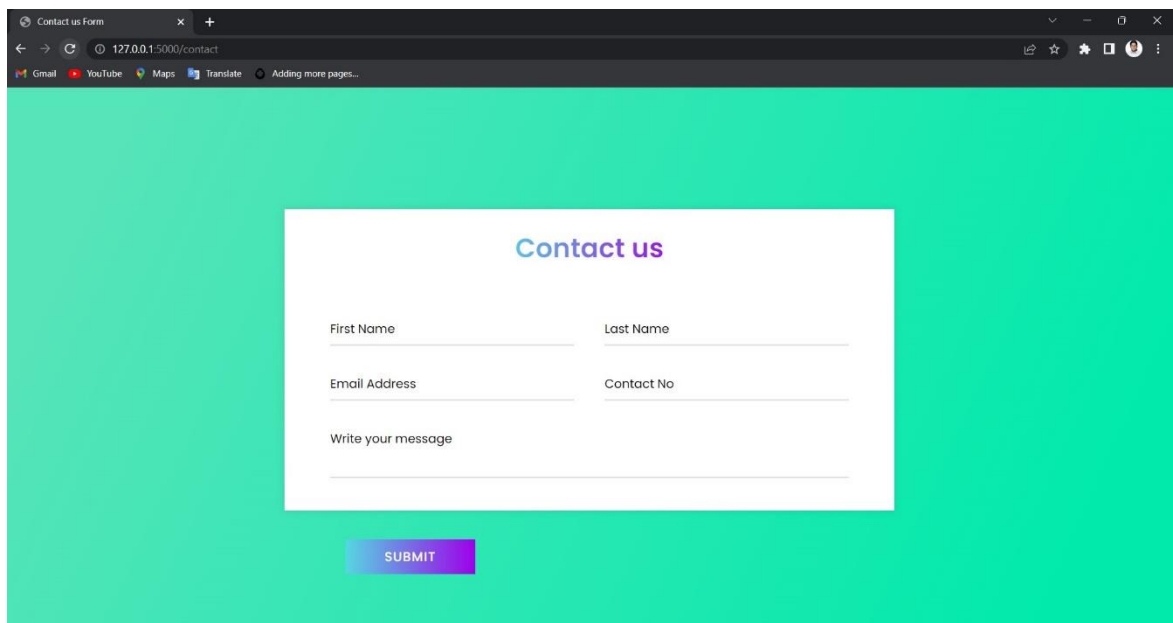

4. Add the Sign up page

The screenshot shows a web browser window with the title "Login and Registration Form". The address bar displays "127.0.0.1:5000/login". The page features a gradient background transitioning from purple on the left to blue on the right. Centered on the page is a white "Signup Form" box. At the top of the box, there are two buttons: "Login" and "Signup". Below these are five input fields labeled "Name", "Email Address", "Password", "Confirm password", and "Contact no". At the bottom of the form box is a large "Signup" button.

5. Add the contact page

The screenshot shows a web browser window with the title "Contact us Form". The address bar displays "127.0.0.1:5000/contact". The page has a solid teal background. Centered on the page is a white "Contact us" box. The title "Contact us" is displayed in blue and purple text. Below the title are four input fields arranged in two rows: "First Name" and "Last Name" in the first row, and "Email Address" and "Contact No" in the second row. Below these is a text area labeled "Write your message". At the bottom of the form box is a "SUBMIT" button with a purple-to-blue gradient.

6. Add the about page
